2017 Enagic E8PA Global Convention & Birthday Celebration Recap

*"An Amazing Event with
Incredible People!"*

Message from *Mr. Ohshiro*

Dear Friends and Distributors,

I was so pleased to host close to 450 of the top distributors and E8PA Members at our most recent Enagic 2017 Convention on my home island of Okinawa. I'm firstly pleased that you could experience the very loving and compassionate style of Okinawa living that we so enjoy and take pride in. I'm also so happy that you could return to the ROOTS of Enagic and experience the deep history from which Enagic was born.

When I look back at the history which gave birth to our Enagic family, I'm reminded of the countless stories of overcoming adversity that we've all experienced over the myriad decades. It brings a huge smile to my face to know that close to a million people worldwide have enjoyed the success of Enagic's vision. Thanks to YOUR hard work and the combined, collaborate efforts of hundreds of thousands of people globally, we are spreading the message of True Health at a rapid pace.

My original dream, close to 40 years ago, was to free people from whatever binds them, from whatever prevents their ultimate ascension into greatness. How very happy I am today to share my birthday, my roots and my future dreams of success with you all.

Hironari Ohshiro
CEO Enagic International, Inc.

*With hard work and determination the dreams
of a young man have come to fruition...
and, with your help, those dreams are now
changing the world.*

Factory Tour Recap

The highlight for every distributor visiting Japan for the first time was the tour of the Enagic factory in Osaka, Japan. Most had only ever seen the factory in pictures posted on social media or videos about Enagic. Being able to tour the factory was a thrill for all in attendance!

Convention Recap

Seminar Spotlight

An important part of the 2017 Enagic Global Convention was the valuable seminar provided to the attendees. Both corporate and distributor instructors were on hand to share their knowledge with distributors about how to build their Enagic businesses, tips on prospecting and growth and lessons of how personal development can positively impact their business efforts.

Distributors were excited to get the day started as they arrived at the E8PA main facility, got registered and made their way into the seminar center.

The hosts for the day got things off to a great start by energizing the crowd and recognizing the many different countries who were represented at the convention. They officially started the day with a toast to the continued success of Enagic and all the distributors.

Immediately following the toast was the introduction of Mr. & Mrs. Ohshiro. Mr. Ohshiro took to the stage and delivered a riveting speech that got the crowd excited and ready for a full day of valuable seminars.

The seminar opened with **Mr. Katsumasa Isobe, Enagic International Master Instructor**, discussing his unique philosophy and approach to seminars. He has personally developed over 5000 business minded instructors over his 40 year career, in both leadership and business. ***“My seminars are less about business strategies and more about human based marketing, personal development and relationships.”***

He detailed what distributors can expect to gain as a result of attending his seminars. ***“My seminars will help people identify where people are in their life...it will give them a reality check. Together we evaluate their past self, in both successes and failures. This***

allows them to gain insight and identify what needs to change and what is working. This ultimately leads to solving the issues that hold people back. It's connecting mindset with actions and emotions which lead to a life change.”

When discussing his goals for Enagic Distributors in 2017, Mr. Isobe said, ***“I want to continue to learn and understand the Enagic business. Based on that, I want to be sure to perform the right way. I ultimately want to be able to help Enagic Distributors meet and exceed their goals.”*** Mr. Isobe has conducted his seminars all around the world and there are currently 162 Certified Enagic Instructors. He expects to have 300 Certified Instructors by the end of 2017 and 500 by the end of 2018. His goal is to have 2000 Global Certified Instructors by 2020, with approximately 30% of those instructors being Certified Master Instructors.

Mr. Isobe summed up his seminar with the following advice, ***“Realize where you are - know who you are. Be honest. There is no one in the world that cannot succeed. My priority is to let the distributors believe and know they can do it. I want those who don't know they can succeed to know that they can. I want to get this message out. I have failed, but I have learned to succeed.”***

Next up was **Don Prosser, Enagic Director of Communications.** Don has developed his own unique seminar called **ESPRI (Enagic Success Personal Relationship Ignition)**

ESPRI takes us on a journey of personal achievement within Enagic and its philosophy on human performance. The ESPRI model has been crafted from the personal life experience and lifestyle philosophy of our Founder, Mr. Hironari Ohshiro. His steadfast commitment to the constant and dedicated improvement of lives around the globe sets the stage for ESPRI's action-packed experience!

The seminar starts with Heros-In-The-Making to their original and unadulterated greatness. Attendees investigate the meaning of personal relationships in our lives and how they form the cornerstone of success in life. A successful Enagic experience is predicated upon mastering human relationships and how those relationships lead to mutual success.

ESPRI offers a plethora of interactive role-plays, all designed to introduce, experiment and master the skills necessary to grow your Enagic mission.

After Mr. Prosser there was a short lunch break. Upon returning from lunch, top distributor instructors graced the stage and gave the crowd valuable information. They shared their own successes and triumphs and explained how each person can succeed in the Enagic business.

Sebastian Popa, Romania

Wade Lighthouse, Canada

Sam Sia, Malaysia

**Wadia Dafesh,
United States of America**

Romi Verdera,
United States of America

It was a full day of excellent seminars and every distributor left with great tips and suggestions of how they may improve their business and themselves. Enagic would like to extend a very special "Thank You!" to each of the instructors; we are extremely grateful and appreciative that you were willing to share your incredible stories and information with your fellow distributors

Rank Advancement Recap

The rank advancement portion of the event was filled with excitement, as distributors who had worked very hard were recognized for their outstanding achievements. The ceremony started with Mr. Ohshiro making a special presentation to all of the existing 6A2-3 and above distributors. He and Mrs. Ohshiro presented each person with a special 18K gold Enagic pin to signify their status as one of the highest ranking distributors in the Enagic Global Distributor base. This special presentation was followed by the presentation of rank awards, which included distributors who had achieved the rank of 6A, 6A2, 6A2-2, 6A2-3, 6A2-4, 6A2-5 and two new inductees, Kenneth Wong & Jayvee Pacifico, into the top position of 6A2-6, a rank attained by only three distributors in the entire world!

Congratulations to each of you for your outstanding achievement!

Mr. Ohshiro's Birthday Bash

The day ended with Mr. Ohshiro's birthday celebration. The festivities included traditional Japanese dancers, a live band playing some of Mr. Ohshiro's favorite songs, an impressive karate demonstration, a delicious multi-course family style dinner and a musical performance by the manager of the hour, Mr. Ohshiro.

The celebration concluded with a magnificent fireworks display. It was the perfect ending to an absolutely incredible day!

ENAGIC® 8 PROSPERITY ASSOCIATION

When Mr. Ohshiro decided to make his dream of a resort destination for distributors a reality, he did what he has always done. Dreamed BIG. Decades in the making and over ¥30,000,000.00 invested, the Enagic 8 Prosperity Association Resort is the fulfillment of his lifelong dream. The result of this dream is an absolutely incredible facility offering an impressive assortment of amenities and activities for its members.

Located approximately 1 1/2 hours away from the Naha Field Airport, in Okinawa, Japan, the trip to the E8PA resort begins with a scenic drive through Okinawa. The drive is a delight for first-time visitors, as the journey allows them to see the many different sides of Okinawa. Travelers pass by larger cities, through pockets of smaller towns, to wide open fields and by beautiful beaches with crashing waves that are mere feet away from the road. The trip winds through the countryside and up and down lush vegetation and hilly landscapes and before they know it, travelers are arriving at the entrance of the E8PA main facility. The main facility is massive, sitting on an expansive 200+ acres, with other areas of the resort taking up another 200 acres, creating a huge 400+ acre resort in total.

At the main facility members will find a restaurant, a Seminar Center, the Enagic Museum, an Enagic store, a bathhouse, a driving range, and a very competitive 18-hole golf course.

You can get your day started by warming up on the driving range or hop onto one of the many golf carts available and jump right into a game of golf. Mr. Ohshiro is an avid golfer and he insisted that the E8PA resort offered a challenging and beautiful course. To help ensure that the course would meet his expectations he took a personal role in the design of all 18 holes. The beautifully designed course features numerous water hazards, including a spectacular fountain tucked away in the winding hills, which serves as an attractive water feature

and a challenging water hazard. The many sand traps are maintained so well that they appear to be more like a Zen garden than a sand hazard.

Each hole is nestled in the winding hills of an amazing tropical rain forest. The views are spectacular, with almost everyone including the crashing waves of the nearby ocean. There is even a traditional Japanese tea house halfway through the course so golfers can take a moment and relax with a hot cup of tea, while enjoying the simply amazing views. Golfers can tee off surrounded by beautiful vegetation or with a view of the ocean or even from the top

of one of the many hills, overlooking the lush rain forest canopy. Novice and pros alike will fall in love with this challenging course and will want to play it over and over.

As part of the activities of the 2017 Global Convention, Mr. Ohshiro hosted a golf tournament. Many players came out to test their skills on this beautiful course. Everyone who participated had a wonderful time.

After an exhilarating 18 holes, golfers can relax and unwind in the on-site bathhouse. Tucked away in its own wing of the building, the bathhouse offers separate facilities for both men and women. There is a large dressing area with oversize lockers and each bathhouse also includes a large vanity area. From there bathers enter the shower and bath area, where they can shower off and then relax as they soak in a hot, luxurious bath, overlooking the ocean below. There is also a sauna for those wanting to enjoy the soothing heat. They then can complete their bathhouse experience with cold water soak to reinvigorate their mind, body and spirit.

After a relaxing soak, members can then dine in the E8PA restaurant, where they will enjoy a variety of local and international cuisine. All of the food is prepared using different grades of Kangen Water, in order to make it as clean and delicious as possible. While dining, members can take in the views of the beautiful golf course or the tranquil ocean and breaking waves of the shore at the bottom of the hill from the resort.

After enjoying the day at the E8PA main resort, members can explore the local surrounding areas, many of which are also part of the resort. There are beautiful semi private beaches, the birth home of Mr. Oshiro, UKON processing facility and UKON farms, just to name a few. There are additional resort facilities and amenities located in other areas of Okinawa, like the Enagic Hot Springs and Ocean 8 Restaurant, or the Enagic Bowling Alley, each is part of the E8PA Resort.

Members will get swept up in the tranquility and stunning beauty of the E8PA resort and all it has to offer and may never want to leave. But they can rest assured that the E8PA resort will always be there, waiting for their return, and that the resort will strive to offer even more amazing amenities and luxurious accommodations for the valued E8PA members.

"Tokyo, and the rest of the world, is reserved for business, while the E8PA is reserved for pleasure and relaxation. I invite you to become a member of the Enagic 8 Prosperity Association and discover the amazing benefits that membership offers."

Hironari Ohshiro

Asia Qualifying Tournament of the Enagic Junior Championship

On February 11, 2017 over 100 of the top players from all over Japan came to the Enagic Sedake Country Club for the 2017 Schiesser Cup. Among these top players were three members of the Japanese National Team. All of the players were excited to participate in the fierce competition and extremely challenging course of the

Enagic Sedake Country Club. It is a narrow course, with tight green undulation. So it takes a steady stroke, finesse and calculated strategy. On top of the already difficult course, players were forced to display their skills and abilities as a mixture of strong wind and rain met them on the first day of the competition. Hina Arakaki, Enagic Golf Academy's top player, was leading after the first day, but on the second day her competitors fared a bit better than her and she missed the championship. Hirohito Nakasone of Enagic Golf Academy won the championship for his age bracket. Four out of the top five players were from Enagic Golf Academy. But for both men's and women's division players from outside of Okinawa won the championship.

Happening at the same time as the Schiesser Cup in Japan, Thai Junior golfers nationwide competed in the 2nd Enagic Junior Championship Thailand Qualifier 2017 at the Grand Prix Golf Club in Kanchanaburi, Thailand. Country Qualifiers from Taiwan, Indonesia, Malaysia and Thailand will now proceed to compete with the Japanese qualifiers in the Enagic Junior Championships Asian Final Qualifying Tournament in Okinawa, Japan at the prestigious Enagic Sedake Country Club starting April 15, 2017.

"Grand Prix Golf Club provided a challenging test for our Thai junior golfers as they faced a difficult golf course and had no caddies to use this year!" says Ted Prommajul, Thai Junior Golfer Guardian Association Optimist Club of Bangkok Tournament Director.

Returning qualifier in the Boys 15 to 18 years old division, Peech Bunnabodee bogeyed the final hole to tie with Bhitchayoot Sima-aree, but lost in a playoff. Supakit Seelangae made five birdies and no bogies for a 67 to win the 14 and Under Division. In the 14 and Under Girl's Division, Pemika Arphamongkol's impressive back nine 39 qualified her for this year's finals.

Congratulations are also in order for Thai junior golfer, Victoria Tip-Aucha, who took the Girl's 15 to 18 Division. She shot a 35-34 = 69 to win by four strokes over fellow competitor Chanikan Yongyuan.

"I had an upset stomach at 3am in the morning and didn't know if I could even play. But, my Dad encouraged me to drink a lot of Kangen Water and stay hydrated which made me stay healthy! I do not get many opportunities to compete in an international field, so this event is so special. I had a great day today!" says Thai Junior Golfer Victoria "Vicky" Tip-Aucha a student at Shrewsbury International School in Bangkok Thailand.

After the Enagic Junior Championships Asian Final Qualifying Tournament in Okinawa, Japan, the top qualifiers from divisions 1 and 2 will be selected to compete in the AJGA Finals Enagic Junior Championship in the United States at the beautiful Wilshire Country Club in Los Angeles, California starting August 14, 2017. The AJGA is The American Junior Golf Association, which is an organization dedicated to the overall growth and development of young men and women who aspire to earn college golf scholarships through competitive junior golf.

These competitive tournaments all began from the desire of Mr. Ohshiro to help young people achieve their dream of being professional golfers. He said "I want to create professional golfers who can spread their wings out into the world." As viewers watch these young, talented golfers they are witnessing them pursue their "American Dream".

Tokyo Office

2020 – Focused on the Future

Normal vision in humans is referred to as being 20 / 20, meaning the clarity of what a person with normal eyesight would see from 20 feet away. In just 3 short years there will be another 2020, which may bring a new level of clarity to the entire world. Not in eyesight, but in understanding and appreciation of Mr. Ohshiro's concept of True Health. You see, not only will the year 2020 be an excellent opportunity for Enagic to promote the idea of "seeing clearly" the profound benefits of True Health, but 2020 will also be a year where Japan, specifically Tokyo, will receive an immeasurable amount of attention and focus as a result of the 2020 Olympic Games in Tokyo.

Mr. Ohshiro knows that 2020 represents a tremendous opportunity for Enagic, especially in Tokyo, as the eyes of the world will be focused on this amazing city. As such, he has decided to personally dedicate a lot of time and attention to the Enagic Tokyo office. In fact, he recently conducted a presentation in the Tokyo office to a standing room only group of attendees and he plans to focus much attention on the Tokyo market.

"Japan has become home for many people from other countries, like Korea, the Philippines, China, Indonesia and Malaysia and many of these people live in Tokyo. Enagic is fortunate to have many distributor leaders from these countries also living in Tokyo. I encourage these leaders to actively promote and recruit their fellow countrymen living in Tokyo and show them the benefits of Kangen Water and True Health."

Mr. Ohshiro believes that if the distributor leaders living in Tokyo, and elsewhere in Japan, really focus their efforts during the next three years, 2020 will be a year of global clarity and focus for all of Enagic.

For those who have never been there, Tokyo is an amazing city. Where ever you look, there are people rushing about to make the most of their day, but somehow they are able to exist harmoniously with one another. It is incredibly clean for a city of over 13 million residents and the streets are deceptively void of the masses you might expect to see. But upon entering the subterranean world of shops and restaurants below the city streets, you quickly find the true pulse of the city. But even here, in a massive consolidation of people, the hallways are clean and neat and people are surprisingly kind and courteous.

The Enagic Tokyo office is located in the heart of the city on the 7th floor of a beautiful downtown building. Just a short walk away from the busy Tokyo Station, the office is easily within reach of anywhere in the city. It offers everything distributors have grown to expect from an Enagic corporate office. There are machines hooked up so people can get Kangen Water. There are meeting areas for distributors to consult with their prospects.

There is a large presentation room where informative seminars are given to standing room only crowds. The sales desk takes care of fulfilling orders of supplies and the sales staff process the many machine orders that come through the office everyday.

One of the key staff members at the Tokyo office is **Akemi Urushiyama**, the General Sales Manager for Global Sales. She has been with Enagic since February of 2008 and has been instrumental in the success of many Enagic offices. She started with Enagic as the Branch Manager for the Germany office and spent three years setting the foundation of that office for expansion throughout the E.U. She then spent 2 years in the Tokyo office, but was asked to help open the Singapore office. She spent two years at the Singapore office and then returned to the Tokyo office and has been here ever since.

Akemi is an absolute delight. Her presence gives the office a sincere sense of warmth and you can tell that she truly cares about each and every person who enters the Tokyo office. She gladly opens the office to distributors to help them build their local Japanese groups. The Tokyo office serves as a hub for distributors living in or just visiting Japan to reach the local population of their countrymen also living in Japan.

On the day of my visit to the Tokyo office it was buzzing with activity. The seminar room was packed, as a live presentation was being conducted at the time. People were getting Kangen Water, filling out order forms and picking up machines. All the while Akemi and the rest of the staff were making sure the needs of everyone there were being met.

On this particular day some of the top leaders of the Filipino distributors in Tokyo were giving the live presentation. There were lots of new prospects, excited to learn about True Health and the incredible Enagic business opportunity.

During the final minutes of the visit to the Tokyo office, Akemi extended the following offer to any and all Enagic distributors. *"If you come to the Tokyo office you can meet lots of the top leaders here in Japan. We conduct seminars in many languages, including Chinese, English, Japanese, German, Korean and Tagalog (the Filipino dialect). So, if you have contacts living in Tokyo, please bring them when you visit us and we will help you build your Global Enagic business! I look forward to seeing you soon!"*

Stories of Success

Quenching the Thirst for Global Success

Okinawa Global Convention

"In June 2013, Ohshiro was planning something extravagant. He would invite the world's top performing distributors to the village of his birth, Setake. But would anyone really come all the way to a tiny village in Okinawa? His closest staff were worried. From France, for example, a distributor would have to fly from Paris to Narita Airport in Tokyo, then onwards to Naha International Airport, then stay in a hotel in Naha or its surroundings, before getting on a bus for several hours to get to Setake. The logistics of travel alone would involve considerable time and distance. And money, of course. But Ohshiro was insistent.

June 2013. One hot summer day followed another in Okinawa. The summer heat of Okinawa is often described as being similar to having a steam bath. You have to have several handkerchiefs in your pocket if you want to get through the day. It's so hot that you can even break into a sweat just sitting down. The Global Convention was held in the old gym hall of the building that used to house Ohshiro's elementary school. The venue had no air conditioning, so a mobile air conditioning unit was temporarily installed. The gym hall was jam packed with 800 of the top distributors from Japan and the rest of the world and the air was filled with their energy—and their sweat.

One by one, in that hot, sweaty hall, the attendees introduced their own success stories: smiling, they talked about their first encounter with kangen water, how it had benefited their health and their personal finances, how it had brought them success. At the end of their speeches, Ohshiro gave a key note speech: "Have Goals". The convention was followed by a dinner, where the attendees

enjoying delicious Okinawa food, all the while wiping the sweat from their brows. People from all over the world, enjoying Okinawan food in a sleepy village. Surely this was the very realization of Ohshiro's biggest dream.

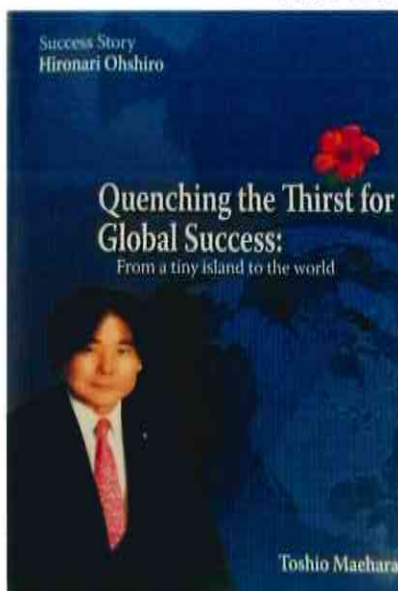

From outside, the scene was striking: the bright colors of eighteen different national flags, flapping together in the evening wind. People from across the globe, all together now in this remote corner. People speaking English, French, Spanish, Chinese. It was a festival of international culture. What on earth had been the attraction? What sense of obligation had prompted all these people to spend

such time and money getting to a place like this? It may well seem strange. But what did the residents of Ohshiro's old village see that night?

I was entranced by the sight of the villagers dancing Okinawan folk dance under the flags of the world and the voices of those Eisa dancers echoing across the night. I felt as if I were in a dream; surely this is what it means to quench the thirst for global success."

Just four short years after the convention in Okinawa, Mr. Ohshiro would truly realize his dream and fulfill his goals, as top distributors and new E8PA Members once again united in the town of his childhood. But this time, instead of meeting in an old gymnasium with no air conditioning, attendees gathered at the impressive Enagic 8

Prosperity Association facilities, where they celebrated the global successes created by Mr. Ohshiro, Enagic and True Health.

Above is an excerpt from the book **Quenching the Thirst for Global Success**, the Success Story of Hironari Ohshiro. It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic.

A must for distributors, it is available at www.enagic.com/shop

Road to 6A

Lessons from the Leaders

During the recent 2017 Enagic Global Convention in Okinawa some of the top distributors in the world took to the stage to provide valuable seminars to the other distributors in attendance. While the seminar topics were different for each instructor, there were some underlying messages that seemed to be included no matter who the instructor.

1. Take your business seriously. Treat your business like a REAL business. One reason that some distributors don't succeed is because they don't have enough at risk. Most "real" businesses require hundreds of thousands of dollars and countless hours in order to someday make a profit. With the Enagic business, a person can have a legitimate, real, business, with the potential to make five or six figures per year, but many people don't see the potential, they only see what's potentially at risk if they don't succeed. That's why a person who has invested lots of money and time in a business will do everything possible to make it work, even if it is evident the business is failing. In a last ditch effort, many people pour even more money and more time into a business they know is doomed to fail. Why? Because they have too much to lose. The Enagic business doesn't require the massive financial and time commitment as a traditional "real" business, which is one reason some people will walk away when their business doesn't boom overnight. Work your Enagic business like a real business and be willing to give it time to become successful.
2. Communication is key. Communicating with your sponsor, your prospects, your customers, the company and your distributor team is critical.

Establishing and maintaining solid lines of communication is a surefire way to develop an efficient and thriving business. Share the proper phone numbers, email addresses, websites and any other method of communication or information you will need for you and your team to be in and stay in touch.

3. Learn, learn & learn. Just like anything else, if you want to be successful in the Enagic business, you need to learn about the Enagic business. Seek out information. Use online resources when available. Attend any distributor seminar event you can. Understand that with everything you learn about the Enagic business, the business will get easier. There are no distributors that "know it all", so every distributor has the potential to learn something new. You don't have to be an expert, but you do need to know the basics, so make sure you learn them.
4. Don't quit. No matter what happens...DON'T QUIT! There is ONLY one way that a person will absolutely fail and that is if they quit. If you commit to never quitting, you will not fail!

Distributor News

Important Announcement

Effective April 3, 2017

There will be several changes taking effect on April 3, 2017. The first is a price increase for Ukon DD subscriptions. Due to increases in production costs, the Ukon DD subscription will now be \$740.00.

Second, also effective April 3, 2017, member prices for the Super 501 and Anespa have been discontinued.

Third, as part of the E8PA membership benefits, members will be eligible for discounted pricing on select Enagic products: Super 501, Anespa & Ukon DD.

E8PA cardholder benefits

As part of the E8PA membership program, all E8PA cardholders will be eligible for E8PA member pricing & commission of the following products effectively on April 3rd, 2017.

Products	E8PA Member Price	E8PA Member 1 point	E8PA Member SP point
Anespa	US\$2,140.00	US\$120.00	US\$15.00
Super501	US\$5,250.00	US\$250.00	US\$55.00
Ukon DD	US\$680.00	US\$40.00	N/A

Congratulations to each of you for your outstanding achievement!

In addition to providing Enagic Distributors with information and resources to help them succeed, the Executive E-Newsletter will also serve as a way for us to recognize the outstanding achievements and rank advancements of our valued Independent Distributors. While we would like to be able to recognize each person who has advanced in rank by name, the sheer volume of new distributors advancing in rank makes it impossible. Instead, we will recognize each person that advances to the rank of 6A and above by name in this section of the newsletter. We are extremely grateful and very proud of the achievement of each person listed below and we encourage every distributor to work hard to achieve the rank of 6A and above so that your name may be proudly displayed with those that are moving up the ranks in the Enagic business.
